

**Hospitality, Leisure, Sport and Tourism (HLST)
Web 2.0 Blogs, Tweets and Wikis
From SPRIG**

The following are Hospitality, Leisure, Sport and Tourism (HLST) resources available in Web 2.0 formats, specially selected by the members of SPRIG. For further information about SPRIG visit our website at www.sprig.org.uk

“Web 2.0 and social media defines technology, social interaction, and content creation. Social media use the "wisdom of crowds" to connect information in a collaborative manner online. Through social media and Web 2.0, individuals or collaborations of individuals create web content, organize content, edit or comment on content, combine content, and share content. Social media and Web 2.0 use many technologies and forms, including RSS and other syndicated web feeds, blogs (ie web logs), wikis, photo sharing, video sharing, podcasts, social networking, social bookmarking, mashups, widgets, virtual worlds, microblogs, and more.”
